**JOHN A. FRASER, M. P.,  
SPEECH ON THE BUDGET**  
(Continued from Page 4)

planks and boards, a drop of \$20,-  
000,000."  
Well, that was not our fault.  
"My hon. friends think we got  
a market in the United Kingdom.  
In 1930 we exported to the Uni-  
ted Kingdom \$5,500,000 worth, in  
1933 we exported \$7,600,000 worth.  
We had a gain of \$2,000,000 to the  
United Kingdom but we lost \$20,-  
in exports of lumber to the Uni-  
ted States."

I submit that the two questions  
have no relation at all to each other.  
It was not the action of this  
government that deprived us of the  
opportunity of disposing of our  
goods in the United States, but it  
certainly was to the credit of the  
government that that market to the  
south of us having been shut off,  
we were able to find an alternative  
market in Britain. And I think that  
if the Liberal party does come into  
power it will hesitate a long time  
before it destroys the effects of that  
market for our products. Then there  
is the cattle business which is ex-  
actly on the same basis. Canada did  
not raise the tariff against the Uni-  
ted States cattle; it was the United  
States that raised their tariff a-  
gainst Canadian cattle and therefore  
shut our cattle out of that market  
entirely, and we had to do exactly  
the same thing as for as our cattle  
were concerned. Our cattle trade  
became depressed. We were in the  
habit of sending 100,000 head of cat-  
tle to the United States market ev-  
ery year, and that market was de-  
liberately taken away from us by  
action of the United States itself,  
carrying on its own business in its  
own way, but to the detriment of  
the people of Canada, and this gov-  
ernment has had to find an alterna-  
tive market for the cattle trade of  
the Dominion. The government had  
to exercise a great deal of energy,  
to spend some money and to take  
an interest in the cattle market in  
order to build up an export market  
for our surplus cattle. They have  
not only spent a good deal of time  
in organizing the trade, in finding  
markets, in assisting shippers and  
breeders and sellers and everyone  
else to find a suitable market, but  
as well they have had to spend a  
sum of money in the ringing up of  
ships for instance. When there de-  
veloped a shortage in shipping space  
this government did not hesitate to  
spend a few thousand dollars to rig  
up ships so that they might be av-  
ailable to transport our cattle to  
the other side of the water. Not only  
that, but they took in hand also,  
with the shipping companies, the  
question of reducing rates, so that  
we find that a substantial reduc-  
tion has been made in the freight  
rates on cattle between this coun-  
try and the old land since the ad-  
vent of this government.  
According to the statement made  
by the hon. member for Shelburne-  
Yarmouth, all that will be done a-  
way with when the Liberal govern-  
ment comes into power. I want the  
people of this country, and especially  
the people of my own district, to  
note the fact that all these bene-  
fits which have accrued from the  
operations of the Conservative gov-  
ernment, who have intelligently run  
the affairs of the country, will be  
lost; and I ask, where will that  
land us. It will subject the people  
again to the same sort of unfair  
competition from all parts of the  
world, in all kinds of surplus mer-  
chandise, to which they were sub-  
jected when we came into power in  
1930.

Owing to lack of space this week,  
and the length of the article, we will  
conclude Mr. Fraser's speech in our  
next issue.

**MANY LOOKING FOR HOMES**

The stampede to this section of  
British Columbia has brought to  
light the fact that all those form-  
ing the influx, are miners, or are  
looking for mining ground—many  
are looking for a home.

Possibly no portion of the Domini-  
on of Canada offers such advan-  
tages to settlers who desire to build  
homes than the upper Fraser River  
section of British Columbia. There  
is an abundance of farming land  
that needs little or no clearing. In  
addition to this fact, there is  
plenty of timber, running water,  
lots of game and fish, and always  
behind these natural advantages  
there is the lure of gold that lends  
excitement to the more or less pro-  
saic task of farming. In the entire  
upper Fraser River Valley there is  
not a stream that is not a possible  
source of placer gold and the recent  
finds in gold-bearing quartz for the  
entire distance from Yale to Bar-  
kerville are merely indicative of  
the possibilities of this great un-  
prospected area.

Home seekers from all over the  
country are flocking into the dis-  
trict and new cabins are springing  
up along the historic old Cariboo  
Trail. Initial clearing is being done  
and small crops are already under  
way.

**WILD GAME ON THE INCREASE  
IN CARIBOO**

Reports from provincial game  
wardens and prospectors say  
that owing to the warm open Spring  
and the earliness of the season,  
there will be an unusually large  
crop of game birds this season. At  
the nesting time there was a lack  
of rain and large healthy coveys  
are the rule.

The same thing applies to moose  
and deer. Many cows and does have  
been seen in the hills, and in a ma-  
jority of cases have two calves or  
fawns. This of course is not excep-  
tional save in the matter of numbers,  
there appears to be an unusually  
large number this year with a spare  
fawn. Possibly the rumor of the  
Ontario mother of five has reached  
the Cariboo and large families are  
becoming popular in big game cir-  
cles.

**"UNCLE BILLY" HASSELL  
TO BOOST THE CARIBOO**

"Uncle Billy" Hassell, owner of  
Radio Station CKCD in Vancouver,  
who made a trip through the Cariboo  
country two weeks ago, secured  
considerable data on the district,  
and may now be heard four nights  
a week from his station.

Mr. Hassell was wonderfully im-  
pressed with the entire trip, and in  
giving the Cariboo prominence in  
his broadcasts for a period of  
four months.

"People in Vancouver, and the  
lower mainland have no idea of the  
scenic beauty of the Cariboo," stated  
Mr. Hassell. "They have been led  
to believe that transportation is  
very backward, and that the main  
roads are practically impassible. It  
is because of this that very few  
venture forth."

"But when I get back to Van-  
couver," Mr. Hassell went on, "I'm  
certainly going to give the district  
and roads the best publicity I know  
of, that is through the radio. I  
want everyone to take the trip. I  
have taken and to feel assured of  
safe roads."

**ONE KILLING OF 37 COYOTES**

When the bounty was being paid  
there was an incentive to Indians  
and trappers to hunt cougars and  
coyotes. F. Cordonier, of Barnhart  
Vale, recalls the Indians digging out  
37 coyote pups in a few days four  
years ago. They are not digging  
out any this year. Major Allan  
Brooks, one of the keenest and best  
informed sportsmen in British Col-  
umbia, advises a \$25 bounty on  
cougars if results are to be obtained.  
The Farmers' Institute Board at its  
annual meeting, urged bounties on  
both pests on account of serious  
depredations.

**WEIGHT OF HAY ESTIMATE**

The most difficult problem in  
guessing the weight of hay is to  
estimate the number of cubic feet  
required to equal a ton. Rules vary  
widely in different localities. One  
rule states that when hay has stood  
less than one month, it requires  
500 or more cubic feet of hay to  
make a ton; where it has stood  
one month, 512 cubic feet; where  
it has stood five or six months,  
422 cubic feet; and where it has  
remained standing for one year,  
343 cubic feet. If it is at all pos-  
sible, it is very much more satis-  
factory to weigh the hay, or at least  
to weigh one stack or mow before  
estimating the weight of similar  
stacks or mows.

Road surfacing material from  
Red Bluff hill has been applied to  
that stretch of front street op-  
posite the Government Liquor store  
and the Overwaita store. This has  
satisfactorily eliminated the danger

from hurtling stones kicked back  
by fast driven automobiles and  
trucks. Two of the plate glass win-  
dows in the Overwaita store have  
been cracked by stones in the past  
Market and the Silver Grill were  
broken last year.

**THINGS WE WANT TO KNOW**

Is it the coast climate that  
makes our local remmes' hair so  
fussy when they come back from  
a vacation?  
How does Jack B. like lamp black  
as a mustache dyer?  
Why do the girls revert to long  
dresses on the courts on Saturday  
afternoons?  
When the thermometer is going  
to rise?  
How many swallows it takes to  
make a Cariboo summer?  
When some people will realize  
that gas and alcohol do not mix?

**The FIRESIDE  
PHILOSOPHER**  
By ALFRED BIGGS

The generous rarely get rich.  
Do your best and leave the rest.  
The "yellow peril" of the world is gold.  
Success builds targets for the envious.  
Mercy is a jewel in the crown of justice.  
Without sorrow we should not appre-  
ciate happiness.  
Battlefields demand less courage than  
daily life.  
If you have to reduce your standards to  
be a "good fellow" you're with the  
wrong crowd.

**Cancellation of Reserve**

NOTICE IS HEREBY GIVEN that  
the reserve existing over Lot 7258,  
Cariboo District, situated on Drag-  
on Lake, is hereby cancelled.  
H. CATHCART,  
Deputy Minister of Lands,  
Lands Department,  
Victoria, B.C.,  
18th June, 1934. 47-50

**GOVERNMENT LIQUOR ACT**

Notice of Application for Beer  
Licence  
NOTICE is hereby given that on  
the 19th day of June, 1934, the un-  
designated intends to apply to the  
Liquor Control Board for a licence  
in respect of a premises known as  
the Antler Hotel, situate on the  
main Quesnel to Barkerville high-  
way, about four miles from the  
town of Barkerville, B.C., in the  
Cariboo Land Registration District,  
in the Province of British Colum-  
bia, for the sale of beer by the glass  
or bottle for consumption on the  
premises or elsewhere.  
Dated this 23rd day of May, 1934.  
A. BRINDAMOUR,  
Barkerville, B.C.  
Applicant.

## Quesnel Takes Rubber in Baseball Tussle

Are they going to fight on the 1st and 2nd of July, when the Baseball Championship of the Cariboo and the \$100 Gold Cup for the prize? It looks as though there are going to be some hot contests for so far to date, no team has yet been able to get any satisfaction by walking over their opponents. The Quesnel squad, having had a couple to neck and neck tussles, ending in a 11run-lead and a draw. Last week end they made a trip to Prince George and though they were able to win the rubber after two close games they were so evenly matched that nothing has yet shown which is the best. It looks so good to a team as having the all the way around, and all the teams lined up are bringing their pack of rooters to help back them up. And how it he'ps! Nothing feels as good to a team, as having the loudest and most present howlers pepping them up.

In the week end tussles Quesnel took the first game on Saturday night from a "Married Men's team with a score of 7-6. They had a small lead from the start and were able to keep it throughout.

In the second game, starting in a rain storm and playing the pick of Prince George, the Quesnel squad could not get going. Error after error was made, and by the fifth innings the Northerners had them 8-0. Taft then decided to take the box, and pitching a ball that just kept away from the piece of wood held Prince for the rest of the game while they perked up on their batting and brought the score to within one point of their opponents.

Nothing to do but play a third they went at it again right after supper. This time the boys were on their toes from the start and with Taft still in the box, played their snappiest yet this year, and took the Prince lads 7-6. Credit is due to the pretty pitching of Taft, who only allowed Prince 5 runs in the last 14 innings of the two games.

Messrs. James H. Wooley, H. A. Gardner and I. C. Gardner arrived at the Quesnel Hotel at 6:45 p.m. on Thursday evening, having left Vancouver at 4 a.m. that morning. They made fast time as far as Soda Creek, but from there on they reported the road in very bad condition. The journey from Soda Creek occupied no less than three and a half hours of their time. They reported that Mayor Taylor and the council had passed a resolution to build a highway as far as Garibaldi Park. Many tourists at the present time, they said, were deterred from coming to the Cariboo for a trip on account of the reports of the road conditions around Quesnel.

Frank Kibbee was a visitor in Quesnel this week. We are glad to learn that Mrs. Kibbee continues to make good progress after her recent serious illness.

Col. Barber of Kamloops, is in Quesnel on official business for the Soldier's Settlement Board.

### POLICE COURT NEWS

Alexander Hill was charged before Magistrate Holt on Thursday with supplying Johnny Paul, an Indian of the Quesnel tribe, with intoxicating liquor. The accused pleaded guilty. Con. Luscombe stated that at about 1:30 a.m. on the morning of June 21st he was called to a shack on the west side of the Fraser river, and in consequence of what he saw, took the accused and Johnny Paul into custody. The accused, continued the constable, was unaware that Paul came under the Indian Act insofar as liquor was concerned, and for that reason he would ask for the minimum fine only. A fine of \$50 and costs or three months imprisonment was imposed. Johnny Paul was charged with being drunk and was fined \$10 and costs or one month hard labour.

A man named Colin M. Mackenzie died on the trail to Terry creek late Thursday night, according to word brought out to Colgrove's on the Quesnel - Prince George highway early Friday morning.

Mr. Mackenzie, who was connected with the Terry Creek Mining Co. was in Thursday afternoon to consult Dr. Baker.

Returning that evening in company with a man named McInnes Mr. Mackenzie complained of feeling weak and sat down to rest by the trail after crossing a small stream 4 miles in from the highway. He died within a few minutes.

Word was brought out by C. R. J. Bissett who notified Mr. Lunn, the coroner.

Mr. Mackenzie was about 50 years of age. He has been on Terry creek since early in May. It is understood he has relatives in Alberta and Manitoba.

Fraser Store had a narrow escape from being burnt down yesterday (Friday) when the bursting of an electric light globe set fire to some gas around the Delco Lighting plant. The fire brigade were on the scene immediately and the fire was promptly extinguished. Fortunately no damage was done to any of the stock or fittings other than to the Delco itself and the batteries. Once again Quesnel must be thankful to her efficient fire brigade for their promptness in reaching the scene of the blaze. A delay of a minute or two might easily have resulted in the loss of the greater part of the store.

J. Hargreaves, of the Springfield Ranch, near Soda Creek, was a business visitor in town on Friday.

Jane Forfar 17 year old daughter of Mr. Edward Forfar of Fort St. James recently hooked a fine rainbow trout weighing 18 lbs. 1 oz. It was landed by her father. The fish which measured 33 inches with a girth of 22 inches is a record for Stewart Lake. Mr. Forfar has had the fish stuffed. They say that Ed. Forfar throws back everything under 7 pounds. Don Martin of the Royal Bank staff thought he was doing pretty well when he threw back everything under 11 inches at Punchaw Lake last week when he and Bill Cocker made a mid night run up there and came back a few hours later with 30 fine rainbow trout.

## Special Interest to Ladies!!

MacKenzie's Ltd. will show at the Rex Theatre Annex on Friday & Saturday, June 29th & 30th.

A specially selected stock of Ladies' Dresses in Sport, Sunday Nite, Swagger Suits and House Dresses, also blouses, shorts and slacks, etc.

MRS. PETERS will be in attendance, everybody cordially invited to inspect this display of fashionable attire for Ladies.
