Notice of Sale By Sheriff

THURSDAY, MAY 9th, 1935, commencing 11 o'clock in the forenoon at Prince George, B.C.

UNDER and by virtue of a Warrant of Execution issued out of the County Court of Cariboo, B.C., HOLDEN at Prince George, B.C., Dated the 18th day of Dec. 1934. The Workmen's Compensation Board, Plaintiff and Tabor Gold (Cariboo) Limited, Defendant.

I have seized all the Goods and Chattels of Tabor Gold (Cariboo) Ltd., situate on Skaret Creek, B.C., AND WILL OFFER FOR SALE at my office in the Government Building, Prince George, B.C., to satisfy the Judgment against Defendant in favor of Plaintiff, the following goods and chattels:—

One Monitor, United Iron Works, Oakland, California, 12 inch intake, 2 Nozzles—1 two-inch, 1 three-inch with forks; with over 2,000 feet of Wooden and Galvanized Iron pipes. A quantity of tools and 1 Canvas Tent, one thousand feet of Lumber, Blacksmith Forge, Anvil and other tools, Camp Stove with Cooking Utensils and equipment for about 12 men.

TERMS OF SALE CASH. The highest or any bid will not necessarily be accepted.

Dated at Prince George, B.C., this 9th day of April, A.D. 1935.

M. C. WIGGINS, Sheriff of the County of Cariboo.

Water Notice

Diversion and Use

TAKE NOTICE that H. R. Furler, whose address is Barkerville, B.C., will apply for a licence to take and use 10 cubic feet per second of water out of Antler Creek, which flows northerly and drains into Bear Lake.

The water will be diverted at a point about the West end line of Placer Lease No. 2910, into old ditch, and will be used for hydraulic mining purposes upon the Placer Claim described as Cat's Paw Placer Claim, on Cunningham Creek.

This notice was posted on the ground on the 29th day of March, 1935.

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Barkerville, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is April 13th, 1935.

The Week's Work in Canada's Parliament

Parliament Hill may be deserted by legislators this week, but it will still hum with activity behind the scenes.

Probably the most important on the list of tasks before the ministers, deputies and government workers is the preparation of a volume of new laws to implement reforms recommended in the report of the Royal Commission on Price Spreads.

In the Department of Mines, Hon. Wesley Gordon was devising ways and means of getting 900 men together to send out 180 geological surveys over Canada. Approved in the last hours before the Easter adjournment was an item in the Public Works Bill providing \$1,000,000 for this work.

Not a gold prospecting proposition but a geological survey to supplement data now available and to assist prospectors in exploring "them thar hills" is this measure. Significant also was Minister of Mines Gordon's statement "northern Canada holds enough gold to pay for all the mistakes made since Confederation—holds the salvation of the country."

On a par with the geology data objective of parties working Saskatchewan will also be the task of finding water reserves which might be utilized to help make fields green now dead and barren from successive years of drought.

One hundred and three of the approximate 184 geological surveys are mapped West of the Great Lakes. Forty go to Saskatchewan, twenty to Manitoba, twenty to British Columbia, eight to Alberta, ten to the Northwest Territories and five to the Yukon.

Acting Prime Minister Sir George Perley's voice was carried across the Atlantic this week in a test of radio machinery being set up to carry the broadcast May 6th on the occasion of His Majesty's Silver Jubilee celebrations. "Thank you, Ottawa—Sir George was heard as clearly as if in England," London reported back to Canadian radio engineers here.

Rumours are current in the capital this week that twenty-five of the members of the House, twenty-three of them Conservatives, would retire from political life when the present session ends. Heading the list are Hon. J. L. Ralston, Liberal financial wizard; Hon. Hugh Guthrie, present Minister of Justice; Hon. R. C. Matthews, Minister of National Revenue; and Hon. Robert Rogers, Winnipeg, Western members mentioned include Percy Davies, Athabaska; A. F. Totzke, Humboldt; Thomas Hay, Springfield, Manitoba; J. H. Stitt, Silklirk, Manitoba; and W. W. Kennedy, Winnipeg South Centre.

Mr. Bennett's huge drought area reclamation scheme went a step forward this week with the naming of the first members of the advisory commission to assist the Department of Agriculture in the administration of the project.

Dr. J. W. Black of the Canadian National, and Augustus Griffin, of the Canadian Pacific, at Calgary, have been named to represent the railways. B. P. Allen, assistant general manager of the Canadian Bank of Commerce, has been chosen to represent the banks.

The first meeting of the commission will probably be held at Regina the first week in May.

Gross revenues of the Canadian National Railways for the week ending April 21st were \$3,116,971, an increase of \$131,963 over the same week of 1934.

Minister of Trade and Commerce, Hon. R. B. Hanson, with J. Hackett and W. G. Ernst, M.P.'s, are out west on a speaking tour arranged by the Prime Minister some time ago.

Hon. Grote Stirling, Minister of National Defence, was the chief speaker at the annual dinner of the Red Chevron Club of Ottawa this week.

HORSES IN VANCOUVER

According to reports to the Dominion Department of Agriculture the horse business on Vancouver Island is brisk, with a demand in every district for horses from 1400 to 1600 pounds for farm and logging purposes. At a sale south of Nanaimo yearling colts sold for \$75 each. Farmers on the Island do not prefer horses from the interior, as these animals are not usually quiet enough for the small farmers who have tree stumps to contend with.

Canada was easily first among the exporters of oats to the British Isles in 1934, with 1,941,279 cwt. This was considerably more than half the amount imported into Britain from all sources.

Mustapha Kemal Atatürk, president and dictator, has approved the first 1000 words that his linguistic experts have selected for a simplified Turkish language. His own name gives something that will do for our "attaboy."—Seattle Daily Times.

FARM JOTTINGS

During recent years virus diseases have been given much attention and it has been found that the best way to eliminate them from the potato crops is to select healthy plants for seed purposes during the growing season. In this manner, the yield per acre has been increased and the type and quality of the potatoes have been improved. Several years ago, a system of seed potato certification was organized by the Division of Botany of the Experimental Farms and is now conducted in every province of Canada. Before crops are certified they must pass careful inspections of the plants and of the tubers. The most important of these inspections is that given to the plants during the growing season. Only those crops that meet rigid standards in regard to freedom from disease and a purity of variety are certified for seed purposes. In this manner certified seed potatoes of very high standard are made available to potato growers.

In order to maintain high standards of seed, the growers have found it advisable to make careful selections each year of the healthy good type plants for their foundation stock. Before they dig the main crop they carefully harvest the tubers from the most desirable plants. If any of these plants do not conform to the required standards in yield, type, etc., they are discarded. The select tubers are given the best of storage. In planting these in the seed plot, advanced growers usually use the "tuber unit" method, by which all the seed pieces from any one tuber are planted in sequence. This method assists greatly in more efficient roguing and in making better selections of the healthy plants. If the plant from one seed piece of any tuber does not conform to the required standards in freedom from disease, type, etc., every plant from that tuber is rogued out and discarded.

The selection of plants and of tubers has been conducted, according to this method, by the Dominion Seed Potato Certification Service in British Columbia. The results obtained with several varieties have demonstrated that a worthwhile increase in yield is obtained by proper selections of plants and of tubers for seed purposes.

As a result of the selection of plants and tubers over a three-year period, with thirty samples received from growers for testing in the experimental plot, the average yield was increased by one and a half tons per acre.

In selecting, the grower should become familiar with the best type of plants, as well as of the tuber, of the variety his is growing. By continually selecting this most desirable type he will eventually develop a good uniform strain. This is undoubtedly the best method of maintaining a high standard of seed potatoes.

CHURCH NOTICES

SUNDAY, MAY FIFTH

Holy Communion at 8 a.m.

Sunday School at 10 a.m.

Bible Class at 11 a.m.

Kersley at 3 p.m.

Evensong and Sermon at 7:30 p.m.

Text: "Honour all men, love the brotherhood, fear God, honour the king."

Wednesday—Church Council at 8:30 p.m.

Thursday—Intercessions at 8 p.m., Choir Practice at 8:30 p.m.

Friday—Holy Communion at 7:30 a.m.

ST. ANDREW'S CHURCH

Sunday School at 11 a.m.

Public Worship at 7:30 p.m.

The service next Sunday will be a Patriotic Service in observation of the twenty-fifth anniversary of the Accession of King George V.

REGULAR SERVICES AT STE-ANNE'S CATHOLIC CHURCH

The regular services will be on the third and fourth Sundays of each month, and services will be as follows:

Mass on Sunday at 9 a.m.; Benediction at 7:30 p.m.; Sunday School after Mass and at 2 p.m.

CHRISTIAN SCIENCE

A Christian Science service is held every Sunday morning at 11 o'clock at the home of Mrs. Grindler, Reid Street North. All are welcome.

It may not be exactly true that you can go out to Kansas in the hot days of August and listen to the corn growing, but you can walk past any grocery store or butcher shop these days and be almost deafened by the queer, buzzing, jumping sounds you hear inside. That's the prices going up.—Chicago Tribune.

TEN LONG YEARS AGO

The tennis season opened here last Saturday, when some young people tread out the courts. For so early in the season they found the grounds in fair condition.

BORN—At the Vancouver General Hospital on Wednesday, April 22nd, to Mr. and Mrs. J. J. Roddis of Castle Rock, a son.

Ernie Moore, who discovered some highly mineralized rock on Cunningham Creek, Barkerville district, a couple of seasons ago, passed through town this week en route to the mining district from the coast where he has been spending the winter. Mr. Moore purposes doing his development work on the claims, we understand.

An historical piece of furniture passed through town this week on its way to the Provincial Museum in Vancouver. It is the chair used by the presiding judge at the trials held in the court house at Richfield some sixty years ago. The chair, which is in a splendid state of preservation, was hand made, and is of fir, covered with leather.

The public Works Department are commencing work on the Quesnel-Prince George highway next week, we understand, and assurances have been given the local Board of Trade, that the work will be pushed to completion as soon as possible.

Children attending the public school were vaccinated last Tuesday by Dr. Baker, local health officer, in compliance with the order recently issued by the provincial health authorities. The doctor was unable to complete the work Tuesday but finished up yesterday.

A CALF CLUB IDYLL

The value of farm club work in improving the quality of live stock and in stimulating a fondness for farm animals, both in the young club members and in their parents is becoming more and more evident. Hundreds of examples all over the Dominion may be cited, but perhaps one of the most idyllic stories of farm home life and the influence of boys and girls farm clubs comes from New Brunswick.

The beginning of 1929 found one of New Brunswick's leading agriculturists just an ordinary farmer milking two cows. That spring his two boys, Fred Jr. and Ernest joined the St. John Valley Calf Club. Their father purchased for each of the boys a pure-bred Jersey calf and at the same time bought a four-year-old pure-bred cow for himself. Recently young Fred's original heifer and her daughter each qualified in the R.O.P. tests with silver medal records. Ernest's heifer also made two good records. Today, sixteen to eighteen pure-bred cows are maintained, headed by one of the best bulls in New Brunswick—Parkfield's Sybil, 48611. A new barn was built in 1934, and increased crop production is likewise being carried out with surprisingly good results.

The above story is particularly interesting in view of the fact that the Cariboo Agricultural and Horticultural Association are at the present time making plans for the initiation of calf clubs in the district.

STARTING CHICKS

Supply water with chill taken off in suitable vessels, charcoal shell and grit or river sand. Feed the youngsters immediately on their entry to brooding quarters. A good starting mash consists of: middlings, ground yellow corn, ground oat groats, each 1 part; shorts, alfalfa, leaf-meal and animal feed mixture, each one-half part; bone meal two per cent; cod liver oil one to two per cent; and salt half per cent.

GOD SAVE THE KING

BARKERVILLE NEWS

(Continued from page 1)

the B. R. A. Home cooking and candy were offered for sale, and a fish pond was the scene of a lot of angling by the kiddies, while the curious, and aren't we all, had their futures read in the tea leaves or by the paste-boards.

Ivan the Boyd is back to home shores again after a two-months' visit with his mother in the East, and we expect a few of the feminine tick-tocks to start fluttering again with the ole heartbreaker on deck again.

As a result of a little item appearing in The Observer on April 20th, under Wells Briefs, and stating that the Wells Badminton Club brought home the bacon in all their local tournaments with Quesnel and Barkerville, a few of the local badminton lights have been grumbling a little in the whiskers and lip-sticks. We consider it a pardonable mistake somewhere, and would just like to mention that in the last tournament between Wells and Barkerville, held at Wells, went that way by two games, 8-6, we believe. In the first set-to at Barkerville the Wells team was playing short-handed and must be excused for being beaten. The combined Wells-Barkerville teams defeated Quesnel on both occasions that they met. No hard feelings, Wells, but you know that local pride will out.

Seen and Heard Along the Main Stem

Buck McKinnon assuring us that he shouldn't be mentioned in this column—a Swede to a non-ditto: "What! you ban to Cariboo two year yet, and you can't speak Swede now? —So I tell him for a job an' he ask me no—kids wearing heavy mitts and wool toques down over their ears wander into the Coffee Shoppe and come out; eating ice cream—the May Westian cooks from the Richfield sauntering down the street and can she SAUNTER — Leonard "the great" looking important and asking yours truly "Wotta yo know today?" he's too big to handle — Scoop! — Bob Calder, the mayor of Whiskey Flats enticing a black cat with luscious bone and catching it: it was this same one that Bob's partner missed on a certain night two weeks ago when it crossed their trail; but why bring that up? — a proud procession of sluice-box-carriers coming up the street: W. W. (Rascal) Russel, Joe the muss and Alan the miner (?) they hope to have to carry the gold out on their backs: we just hope they'll have enough to buy us a cup of coffee after all the ones we bought them! Fer 'eavens sake don't show them this!

Just Musing on This'a and That'a
That little misplaced eyebrow of the Coffee Shoppe prop, fashiona-in', what say girls? And who would deny that Chuck is a fast worker? Wonder how many sons of Confucius will be working for the Lowhee this season, and how do they get away with that year after year? And Hoffman advising George Roberts to stay with the bridge game and not go to bed, as lots of people die in bed And will somebody please keep Pete out of the lunch contests and give somebody else a chance! Just think of all the humorous, interesting and true little incidents I could record if I was 60 pounds heavier, eight inches taller and had taken a course in boxing! and there's a moon tonight, so goodbye!
