The Mining Industry of British Columbia

The value of mineral production for the year 1936 was \$54,081,967; being an increase of \$5,263,728 over the value for 1935.

INVESTIGATE BEFORE YOU INVEST

Applications are now being received for copies of the Annual Report of the Minister of Mines for the year 1936. This report is being issued in seven parts; i.e., Part A, a Summary of the Mining Industry; Part B, North-western District; Part C North-eastern District; Part D, Southern and Central Districts; Part E, Eastern District; Part F, Western District; and Part G, Inspection of Mines. A copy of any separate Part is issued free of charge; additional Parts—10c each.

The Office Dog

The One Difficulty
Lady: "Is it difficult to write
well?"
Budding Author: "Not at all, but
it is difficult to make people realize
that one does."
The Wonder of It
"Pat, Pat!" said the minister in
reproach, "sinners stand on slippery
ground."
"So O! see, yer reverence," said
Pat, "but faith, it's more than O!
can do."
Strange Case!
Sergeant: "But you say you're a
college student?"
Prisoner: "I am, sir."
Sergeant: "But you can't be!
We've searched you and there isn't
a single magazine subscription blank
on you!"
After Commencement
"Start this young man in as office
boy."
"But sir, I'm a college graduate!"
"Better start him in on something
easier, then."
Getting Satisfaction
"Well," said the Englishman (you
know him) to the Scot (you know
him, too), as they alighted from the
London-Glasgow express, "it's been
a long and tiring journey."
"Aye," said the Scot, "an' so it
ought ta be, for the money."
More Howlers
Another selection of recent "howl-
ers":
"Cupidity is another name for
infatuation."
"A la carto is French for per de-
livery van."
"A goblet is the homely name for
a baby turkey."
"A counter-attraction is a pretty
shop assistant."
Just a Moment
"I am trying," said the stranger
at the door of the seaside board-
ing-house—"I am trying to trace a lady
whose married name I have forgot-
ten. All I know is that she lives in
this neighborhood."
"But she is easily described," he
went on. "She is a lady of singular
beauty and charm, with a pink-and-
white complexion, ears like sea-
shells, eyes like the stars, and hair
such as a goddess might envy."
"I'm sorry, sir," said the little
servant-girl. "But I don't know."
Suddenly a voice came from the
top of the stairs: "Jane, tell the gen-
tleman I'll be down in a minute."
No Place Like Home
"Auto trailers will never be able
to take the place of a home?"
"No, they'll never be able to put
a closet in one long enough to lose
rubbers in."
Tenth
A divinity professor was asked to
preside at the baptism of the last-
arrived infant in the already
crowded home of the minister of the
parish. The professor gave out for
congregational singing one of the
paraphrases often used on such occa-
sions in Scotland:
"Let us," he said, "sing from the

second verse, "As sparks in close suc-
cession rise."
To his consternation he observed
that the congregation seemed unable
to repress a tendency to giggle.
Afterwards, asking the minister's
man what had been wrong he re-
ceived the reply, "You see, sir, the
minister's name is Sparks, and
yonder is his tenth bairn."
So There
"We have no connection with the
shop next door. Our motto: Civility."

THE HOUSEWIFE

FLAKY PASTRY
3 cups flour (sifted and measured)
2-3 cup shortening
1-3 cup butter
1 teaspoon salt
7 tablespoons ice water
1 tablespoon white vinegar
Sift and measure flour, add salt
and sift again. Cut in shortening
until granules are about size of
peas. Add water and vinegar
(mixed) gradually cutting it in well
with knife or mixer until it leaves
sides of bowl clean. Chill thorough-
ly and roll carefully. Bake 15-20
minutes at 375-400 degrees.

COFFEE CREAM PIE
3 eggs, separated
2-3 cup granulated sugar
1 teaspoon salt
4 tablespoons corn starch
1 cup strong hot coffee infusion
1 cup milk
1 teaspoon vanilla
1 tablespoon butter
Mix sugar, salt and cornstarch well
together. Add to this mixture the
well beaten egg yolks and blend thor-
oughly. Heat milk to scalding point
(over hot water) and add coffee in-
fusion. Add egg mixture to this and
stir constantly until mixture thickens,
remove from heat and add vanilla
and butter, beating well. Cool and
pour into baked pie shell. Half cup
of coarsely chopped pecan nuts may
be added when mixture is cool. Top
pie with a meringue made with the
egg whites and three level table-
spoons sugar to each egg white, and
sprinkle top with coarsely chopped
blanched and toasted almonds. Brown
in 400° oven for 2 or three minutes.

STANDARD COOKIES
1 cup brown sugar
1 egg
2 cups butter
1 Pinch soda dissolved in water
1 teaspoon vanilla
Flour to thicken (5 or 6 cups)
Cream butter and sugar well to-
gether. Add egg, slightly beaten and
blend well. Add soda which has been
dissolved in 1 teaspoon of warm
water to the mixture and then add
flavoring. Work in flour until the
dough is thick enough to roll. Mar-
aschino cherries (chopped) and nuts
may be worked into this mixture.
Roll out dough carefully and cut in
fancy shapes. This may be made into
rolls, chilled in refrigerator and then
sliced and baked in 350° oven until
golden brown.

ORANGE CAKE
1 cup white sugar
1/2 cup butter
2 egg yolks
1/2 cup sour cream
1 orange, rind and juice
1 cup raisins
1 teaspoon soda
2 cups flour
NOVELTY CAKE
One cup granulated sugar and 1/2
cup butter beaten together until
creamy; add 2 well beaten eggs and
then 2-3 cup sweet milk alternately
with 2 cups sifted flour in which has
been previously added 2 teaspoons
baking powder; add 1 teaspoon van-
illa. Beat thoroughly. Put 3 this
mixture in buttered cake tins, and
to the remainder add 1/2 cup chopped
raisins, 1/4 teaspoon each kind of
spice and 2 tablespoons New Or-
leans molasses. A little more flour
may be needed—not too much, or it
will be too dry.
Bake in a moderate oven and ice
when cool.

MAGIC LEMON COCOANUT
Two cups icing sugar, 1/2 cup of
sweetened condensed milk, 2 table-
spoons lemon juice, 1 teaspoon grated
lemon rind, 1 cup shredded cocoanut,
yellow vegetable coloring if desired.
Stir sifted confectioner's sugar into
sweetened condensed milk. Add the
lemon juice and grated rind. Beat
until smooth and creamy. Tint pale
yellow with coloring if desired. Cool
cake before spreading frosting, and
sprinkle cocoanut over top. Will cov-
er top and sides of loaf cake or tops
to two eight-inch layers.

A PPLE CAKE
One-half cup butter, 1 cup sugar
(creamed). Sift 2 cups of flour, 2
teaspoons of soda, 4 teaspoons of
cooca, 1 teaspoon cinnamon, 1 tea-
spoon allspice or cloves to gether.
Add 1 cup of raisins, 1 1/2 cups of
ground raw apples, 1 cup walnuts, 1
teaspoon vanilla. If the apples are
not juicy, add a little water.

LOCAL BOARD MEMBERS TO GO TO PR. RUPERT

(Continued from page 1)

and Jasper, in order that tourists would be able to make triangle tours through Cariboo and the northern portion of the Province without the necessity of backtracking, which, in the opinion of many, was keeping many tourists away from this section. The resolution was approved by the meeting.

A second resolution was put forward by H. J. Gardner that the old system of electing Commissioners for Village Municipalities (three at one election) be again placed on the Provincial Statutes, rather than the new system of electing one Commissioner each year, which was introduced by the Government two years ago. Considerable discussion followed this proposal and various other suggestions were put forward, but no agreement was arrived at. All agreed, however, that the present system is not desirable, and it is hoped that the matter may be discussed with other Village Municipality representatives at the convention next month.

The meeting then heard the report of Mr. Lunn who was investigating the complaint of Consolidated Gold Alluvials re poor phone service at night (in cases of emergencies). Mr. Lunn reported that he had been unable until recently to find out where the trouble lay. But had just discovered that the trouble was with the Government exchange here and was investigating further.

The secretary then reported that the treasury was in a low financial state, and suggested that the dues be raised from \$2.50 a year to \$5.00, which would eliminate a lot of assessments which had to be imposed on members each year. This was discussed and it was decided that it was unfair to ask many of the members, who derived no benefit from the Board's activities, to pay \$5.00 for membership, and a resolution was put forward by Mr. Ramsay that the fees be set at \$3.00 a year, and that any other monies needed be raised by assessment on the members who benefited most from commercial interests.

The August meeting of the Board of Trade has been cancelled. The next meeting will be held on the second Monday in September.

B. C. MINING INDUSTRY UP FOR FIRST HALF YEAR

(Continued from page one)

months of only \$1,860,462.

Silver shows a substantial increase in volume, as compared with 1936. It is interesting to note that the estimated volume production for the first six months of 1937 is the same as for the first six months of 1929. There is a difference, however, in metal prices, the average for this year being 45.029c as compared with 55.297c in 1929.

Structural materials and miscellaneous metals, minerals and materials show an estimated increase in value which is, perhaps, conservative, in view of the general business recovery, and it is quite possible that the increase in value for both of these divisions will be greater for the whole year than the present anticipated.

Dividends paid up to the end of June are greater than for the corresponding period of 1936, and those declared for payment in July and August in 1936. It is likely, therefore, that the total dividend disbursements in 1937 will be greater than that for last year.

To sum up the situation, it is worthy of note that metal prices as at the end of June are somewhat lower than the average prices for the first six months, and that therefore the value production for the last six months, and that therefore the value production for the last six months of the year may not be as great for the first six months. However, considering the increased copper output, due to the reopening of Copper Mountain at the end of the six-month period, and to probable production towards the end of the year from two or three new properties, it is anticipated that, if no unforeseen circumstances arise, the gross value of the mining industry in 1937 will exceed \$70,000,000.

It is particularly gratifying to realize that the possibility of a record value production will be due chiefly to better metal prices, and not entirely to volume production, which on the basis of tonnage is not likely to be as great as that for the previous peak year of 1929. Further, it is breaking production of the industry so for this year has not resulted in a wild speculative boom in stocks, and resultant wastage. It is also gratifying to note that new properties are being brought into production, and that with the reopening of old properties, mill capacity will be considerably increased over last year.

The fact that mining is a wasting asset should not be overlooked, and that production can be maintained only through new discoveries and their development. These are not being made perhaps as fast as necessary to ensure the future of the industry, but, all in all, the industry for the first six months of this year is in the healthiest condition for many years.

Companies paying dividends include Bralorne, Cariboo Gold Quartz, Fairview Amalgamated, Highland Bell, Pioneer, Premier, Reno, Sheep Creek, and Consolidated Mining and Smelting Co.

Placer gold increased in last six months 13.9%. Lode gold increased 19.7%.

Gold values last six months of 1936 averaged, per ounce \$35.10. For first six months of 1937, \$34.98.

AVERAGE PROSPECTOR MAKES ONLY \$70 A YEAR

WASHINGTON, D.C.—The Bureau of Mines and the WPA let it be known that "thar's darn little gold in them thar hills."

The two agencies said that an inexperienced prospector makes about \$70 a year.

"The joint survey proves conclusively the futility of the suggestion frequently made in recent years that large numbers of people be encouraged to become gold miners as a means of solving the unemployment problem," a report said.

The survey revealed that of 28,000 men who turned to placer gold mining to obtain a livelihood, some sold gold during 1935.

Those individuals worked an average of 45 days during the year and grossed an average of \$1.50 each working day. The remaining countless thousands made nothing, the report said.

Certificates of Improvements

NOTICE

AUSTIN FRACTIONAL MINERAL CLAIM.

Situate in the Cariboo Mining Division of Cariboo District. Where located: On Island Mountain.

TAKE NOTICE that The Island Mountain Mines Company Limited, Free Miner's Certificate No. 27860, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.
