## THE HOUSEWIFE

### POPOVERS

1 cup flour  
2 eggs  
7/8 cup milk  
1/2 teaspoon melted butter  
1/4 teaspoon salt  
Mix salt and flour; add milk gradually to make a smooth batter. Beat whole eggs until light and add to

mixture. Add butter. Beat for 2 minutes with egg beater, turn into buttered, greased hot muffin tins. Bake 10 minutes in hot oven and then 25-30 minutes in moderate oven as popovers begin to brown.

### CHOCOLATE WAFFLES

1 3/4 cups flour  
3 teaspoons baking powder  
1/2 teaspoon salt  
6 tablespoons sugar  
2 eggs  
1 cup milk  
2 tablespoons melted butter  
2 squares chocolate, melted

Sift together flour, sugar, salt and baking powder. To this add the yolks of the eggs well beaten and mixed with milk. Add melted chocolate and then melted butter and lastly fold in the stiffly-beaten egg whites. Bake on a hot waffle iron until well done.

chimes, instead of stopping with the usual 12, kept right on sounding. The bewildered farmer counted them up to 102, and then awakened his wife: "Mary, for goodness' sake, get up! It's later than I've ever known it to be before."

### ANOTHER SLUR

Small Girl (seeing bagpiper for the first time): "Daddy, can't you stop that man? He's squeezing something under his arm, and he must be hurting it—listen to the noise it's making."

### MEASURING TIME

Manager (in music store): "How long did you work in the last place?"  
New Pianist: "From Dardanelles to Red Sails in the Sunset."

### SCHOOLBOY HOWLERS

"An artery is a place where paintings are kept."  
"Chink is an expression signifying Chinese money."  
"Climate lasts all the time, and weather only a few days."  
"Hypothesis is what you require to develop snapshots."  
"The laity is a collective name for a lot of hens."

### WHAT THE CLOCK DOES

Jack: "Grandpa, we've been arguing whether the clock stands or sits on the mantel."  
Grandpa: "It is half-past eight by the clock and it is only a quarter of eight; therefore I should say it lies on the mantel."

### HONEY DOUGHNUTS

1 cup milk  
4 tablespoons honey  
1 egg  
2 teaspoons cream of tartar  
3/4 cup sugar  
1 tablespoon butter  
1 teaspoon salt  
1 teaspoon soda  
1/2 teaspoon nutmeg  
1/2 teaspoon ginger  
Flour  
Cream butter, sugar and honey thoroughly, gradually beat in egg, add milk alternately with soda and cream of tartar sifted with 2 cups flour, nutmeg and ginger. Add 1 tablespoon of boiling lard out of the pot prepared for frying. Then add enough flour to make a stiff dough. Roll and cut out, and fry in deep fat at 375°F.

### HOT-WATER GINGERBREAD

1 cup molasses  
1/2 cup boiling water  
2 1/4 cups flour  
1 teaspoon soda  
1 1/2 teaspoons ginger  
1/2 teaspoon salt  
4 tablespoons melted butter  
Combine the molasses and boiling water, blending well. Sift flour, measure and sift again with soda, ginger and salt. Add molasses mixture to dry ingredients, mixing well. Lastly, add melted butter, blending to a smooth batter. Bake in buttered muffin tins in 350 deg. F. oven for about 30 minutes; or in square 8 x 8-inch pan for 40-45 minutes or until done.

### BRAN MUFFINS

1-2 cup brown sugar  
2 tablespoons melted butter  
1/2 teaspoon salt  
1 egg  
1 cup flour  
2-3 cup buttermilk  
1 1/2 cups bran  
2 teaspoons baking powder  
1 teaspoon baking soda  
1/2 teaspoon nutmeg  
1/2 teaspoon cinnamon  
Dash of mace  
1/2 cup dates  
1/2 cup nuts  
Combine dry ingredients except soda, which is dissolved in sour milk. Add dates and nuts to dry mixture. Combine liquid ingredients and add to dry mixture as quickly as possible, mixing only enough to dampen flour. DO NOT BEAT MUFFINS. Drop by spoonfuls in buttered muffin pans and bake 25 minutes in hot oven.

The  
Office  
Dog

### ENTERPRISE

Over 100 years ago a youth of 18 journeyed from Cape Cod to Boston to seek his fortune. Diligent search failed to reveal a job, so he set about to make one.

Casting about among some refuse, he found a board suitable for building an oyster stand on a street corner. Then he borrowed a wheelbarrow and went three miles to an oyster smack, where he purchased three bushels of the bivalves, and wheeled them to his little stand.

He sold all of his oysters in one day, and continued in this pursuit until he had saved \$130, with which he purchased a horse and cart. Presently he was able to move his growing business into a commodious building where he continued to prosper.

Thus did Isaac Rich lay the foundation of a great fortune which, after his passing, provided for the establishment of the Boston University.—Christian Science Monitor.

### BARGAIN STRATEGY

The two golfers were eager to get on with their game, but every time they prepared to drive, a woman player stood in front of them some yards away.

"The golfers yelled 'Fore!' until they could scarcely speak, but the woman paid no attention. She simply stood there monkeying with her clubs. One of the golfers decided to quit the course.

"Wait a moment," argued his companion. "I have an idea."

He cupped his hands round his mouth and screamed "Fore!" once again. But still the woman seemed not to hear.

Then in one supreme effort the golfer shouted "Three ninety-eight!" And the woman turned around immediately and stepped out of the way!

### LATE!

An Ontario farmer bought a large mantel clock, one of the kind that strikes the hours and half hours. That night he was awakened by the striking of the clock. Something had gone wrong with the mechanism and the

## The Mining Industry of British Columbia

BRITISH COLUMBIA HAS PRODUCED MINERALS OF AN AGGREGATE VALUE OF \$1,515,728,149.00

The gross value of the industry for the first six months of 1937 is estimated to be \$36,383,340.00. This is an increase of 53.4% over the value for the corresponding period in 1936.

Indications are that this year's production will exceed that of any previous year in value, which is a splendid commentary upon the stability of the mining industry in this Province. New properties are being brought into production, and with the reopening of old properties, mill capacity will be considerably increased over last year.

FOR AUTHENTIC INFORMATION REGARDING THE INDUSTRY APPLY TO

#### CHRISTIAN SCIENCE

A Christian Science service is held every Sunday morning at 11 o'clock at the home of Mrs. Grant Grider, North Quesnel. All are cordially invited.

#### STATISTICAL STUDIES IN AN OTTAWA BUREAU

The Dominion Bureau of Statistics in Ottawa, presided over by Dr. R. H. Coats, comprises several branches each dealing with some specific part of the survey. Officials of the bureau revel in figures, though they may not juggle with them. They can deliver on demand statistics of endless variety, all the way from crops to crime. Once in a decade they concern themselves seriously with the increase in the population of the Dominion and call it taking the census. At other times they are engaged in compiling figures on production, exports and imports and can reveal the activities and output of Canadian farms, fisheries, forests, factories and mines.

W. H. Losee, chief of the minerals, metallurgy and chemistry branch, is responsible for the compilation of fertilizer statistics and has earned praise for the skillful manner in which he has handled what was once an awkward and chaotic situation. His statistics are accurate, and he will check closely the new figures which record a fastly increased consumption of fertilizers this year. But there's no denying them or the farmers who have awakened to the need for fertilizers.

The following item got mixed up with agricultural statistics: A manufacturer of razor blades computes that in Great Britain a total of 50,000 miles of hair is shaved from 125 acres of faces daily, the assumption being
